HSBC GLOBAL INVESTMENT FUNDS - GLOBAL EQUITY CLIMATE SOLUTIONS

a sub-fund of HSBC Global Investment Funds, (the "UCITS");
 managed by HSBC Investment Funds (Luxembourg) S.A.

Class:IC
 ISIN:LU0323240613

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth by investing in companies that actively contribute to climate solutions. The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing.

Investment Policy:

The first step in the investment process consists of determining the fund's investible universe by applying Excluded Activities in accordance with HSBC Asset Management's Responsible Investment Policies and additional exclusions relating to the Paris-aligned Benchmarks. The second step in the investment process is that the Investment Adviser aims to construct a portfolio of eligible companies that contribute to climate solutions and long-term growth.

In normal market conditions, the Fund will invest at least 80% of its assets in shares (or securities similar to shares) of companies whose activities contribute to climate change mitigation and adaptation ("Climate Solutions"). This includes companies that are domiciled in, based in, carry out business activities in, or securities that are listed on a Regulated Market in, any country including both developed markets and Emerging Markets.

Climate Solutions are products or services that directly or indirectly provide essential support for the decarbonisation of companies involved in the shift from a highly fossil fuel-dependent economic model (oil, gas, coal) to a more sustainable or low-carbon economy. These products or services can be organised across climate solutions eco-sectors which may include, but are not limited to, renewable energy, energy efficiency, clean transportation, and green buildings ("Climate Solutions Eco-Sectors"). Please refer to the prospectus for further details on Climate Solutions Eco-Sectors and excluded activities.

The Investment Adviser aims to construct a portfolio with (i) a higher ESG score than the constituents of the Reference Benchmark; and (ii) a lower carbon intensity relative to the Reference Benchmark.

Climate Solutions, Climate Solutions Eco-Sectors, environmental and social factors, corporate governance practices, lower carbon intensity and excluded activities and the

need for ESG due diligence may be identified and analysed using both HSBC's proprietary ESG Materiality Framework and scores as well as research & information provided by financial and non-financial data providers.

The Fund may invest up to 20% in China A and China B-shares. For China A-shares, up to 10% through the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect, up to 10% in CAAPs and up to 10% in CAAPs issued by any single issuer.

The Fund may invest up to 10% of its assets in eligible closed-ended Real Estate Investment Trusts, up to 10% in other funds, and may invest in bank deposits and money market instruments for treasury purposes.

The Fund may also invest in derivatives and use them for hedging and cash flow management purposes. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ◆ The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- ◆ The reference currency of the Fund is USD. The reference currency of this share class is USD.
- ◆ The Fund is actively managed and does not track a benchmark. The reference benchmark for the Fund is MSCI AC World Net.
- ◆ The Investment Adviser will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- ◆ Income is reinvested.
- ◆ You may sell your investment on most working days.
- ◆ Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.
- ◆ This product is based overseas and is not subject to UK sustainable investment labelling and disclosure requirements.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 6 because its price or simulated data has shown high fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- ◆ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- ◆ **Derivatives Risk** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- ◆ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ◆ **Investment Leverage Risk** Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ◆ **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ◆ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year	
Ongoing charge	1.00%

Charges taken from the Fund under certain specific conditions
